

HOPE *worldwide* Nepal Project Report

November – December 2017

Introduction of HOPE *worldwide* Nepal

HOPE *worldwide* Nepal is a non-profit charitable and non-sectarian organization, registered as a "Asha Sansar" under the District Administration Office in Kathmandu, Nepal and affiliated with Social Welfare Council Nepal.

The main objective of our organization is to empower disadvantaged & poor children through free education till primary level and Adults in our society through different vocational trainings.

We help & encourage children of our society to know their ability & quality by allowing them to participate in extra-curricular activities like arts, competition, sports and community involvement. In this way, they can feel proud of themselves & also can feel responsible towards the society.

Some Activities of the Programme

- ❖ Educational Quality Improvement Program
- ❖ Story of Sanjay Tamang
- ❖ Second Term Exam at the School
- ❖ HYC 2017 in Kathmandu, NEPAL
- ❖ HOPE *worldwide* village Project

Educational Quality Improvement Programme

We had an educational quality improvement program organized by Mr. Manoharan from Indonesia. This program helped teachers move away from the traditional rote learning, theoretical teaching and develop interactive and child-friendly learning and teaching by using Google virtual reality technology and online reading materials.

We are very thankful to you for all the equipment you provided. This will help to develop problem-solving as well as creative thinking in students.

Story of Sanjay Tamang

Sanjay is a 12 year old student from Balaju height. He has three sisters. His family migrated from their village to Kathmandu with hopes of making their life financially better. Sanjay's father worked as a labourers in Kathmandu and earned Rs.500 – 800 a day which was barely enough for him to put food on the table for his family.

A few months ago his father Ram was told that he had a heart problem which could not be operated on and he

had to stop working. As a result his mother and his elder sister both had to work as labourers to earn their daily bread.

Even though things are quite challenging for a boy of his age, Sanjay is very determined not to drop out of school but to make the most out of his situation. Sanjay is doing great in his studies. He wants to become an engineer.

We wish the best for him and his family.

2nd term Exam at the School

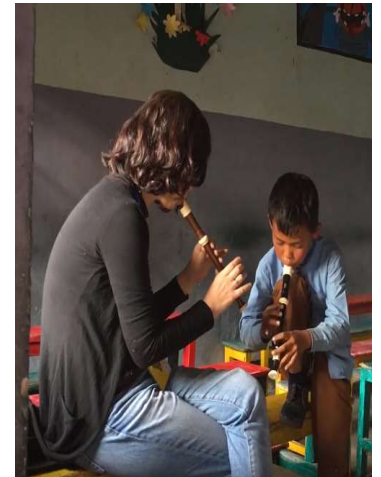

November 21st to December 1st, the students of the HOPE school completed their second term exams. All of the students attended the exams and on December 10th the students were able to receive their results. Parents and family members came to the school to collect the results and speak with their children's teachers. Overall the students performed well. This exam helps the teachers gauge how their students are learning after one third of the school year has been completed, identify areas that students need to grow in, and determine where to focus their teaching as the school year continues.

HOPE Youth Corps (HYC) 2017 in Kathmandu, NEPAL

HYC volunteers worked hard serving in the school for more than a week. They repainted all our classrooms, renovated floors, plastered walls which were cracked and repaired the broken drainage system of our school. They painted all the school benches in different colours. They sealed all the ceilings of the library, kitchen, and store room in order to stop rats from entering the rooms at night. They donated books and toys for the school and bought us a Table Tennis board.

These volunteers brought along with them chocolates, gifts and clothes, which all the children were very happy and delighted to receive. Thank you to all the volunteers who decided to give the children a reason to smile and enjoy their week. It was a wonderful treat for the students, which they will cherish, since most of their parents struggle to feed them basic meals. What is normal for many children is "extra ordinary" for these children.

HOPE Youth Corps (HYC) 2017 in Kathmandu, NEPAL

HYC Volunteers taught the children to speak English, sing songs and play music. They painted our Vocational Training Centre (VTC) and gave us an excellent computer repair service to all our computers, donating some of the laptops as well. A few of them taught computer programming at the VTC.

They also visited a child's home. The narrow pathways between the houses were extremely dusty and steep, many covered in rubble. Volunteers also provided some food for their family.

We had a very special Christmas day. The children were very grateful and excited to get presents and chocolates. We had a wonderful meal cooked on the day and the children were surprised to see Santa and were very happy and delighted to celebrate Christmas.

HOPE *worldwide* village Project

The HOPE *worldwide* village Project is focusing on a village outside of Kathmandu which has been badly affected by the earthquake of 2015. This project will greatly improve the livelihoods of vulnerable households, the economic status of farmers and better the nutritional status of children in Chaimale village. Farmers and their families will be trained on product development from their locally produced fruits, vegetation and small business development to selling these products in the market. It is our goal and desire to give extra tuition classes in English language and computer training to the local students.

Current Needs

- * In the running of the primary school, there are always many needs. We wish to thank all the existing donors for their support and prayers.
- * We kindly request you to be our partner with us meeting the needs of the children.
- * We wish to upgrade to grade 6 or sponsor for grade 6 in another school.
- * We would welcome smart phones for the educational quality improvement program.
- * Also computers (useable normal laptops) and furniture are an essential need for the HOPE *worldwide* village project.

Thank You!
